## Condor Gold plc

("Condor" or "the Company")

### Total Voting Rights

In conformity with the Disclosure Guidance and Transparency Rules of the Financial Conduct Authority, the Company announces the following:

As at the date of this announcement the Company's issued share capital consists of 118,327,469 ordinary shares with a nominal value of 20 pence each, with voting rights ("Ordinary Shares"). The Company does not hold any Ordinary Shares in Treasury.

Therefore, the total number of Ordinary Shares in the Company with voting rights is 118,327,469.

The above figure of 118,327,469 Ordinary Shares may be used by shareholders in the Company as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in, the share capital of the Company under the Financial Conduct Authority's Disclosure Guidance and Transparency Rules.

### About Condor Gold plc:

Condor Gold plc was admitted to AIM in May 2006 and dual listed on the TSX in January 2018. The Company is a gold exploration and development company with a focus on Nicaragua.

In August 2018, the Company announced that the Ministry of the Environment in Nicaragua had granted the Company an Environmental Permit for the development, construction and operation of a processing plant with capacity to process up to 2,800 tonnes per day at its wholly-owned La India gold project ("La India Project"). The Environmental Permit is considered to be the master permit for mining operations in Nicaragua. Condor

Gold published a Pre-Feasibility Study ("PFS") on the La India Project in December 2014, as summarised in the Technical Report as defined below. The PFS details an open pit gold Mineral Reserve in the Probable category of 6.9 Mt at 3.0 g/t gold for 675,000 oz gold, producing 80,000 oz gold per annum for seven years. La India Project contains a Mineral Resource of 9,850Kt at 3.6 g/t gold for 1,140Koz gold in the Indicated category and 8,479Kt at 4.3g/t gold for 1,179Koz gold in the Inferred category. The Indicated Mineral Resource is inclusive of the Mineral Reserve. A gold price of \$1,500/oz and a cut-off grade of 0.5g/t and 2.0g/t gold were assumed for open pit and underground resources respectively. A cut-off grade of 1.5g/t gold was furthermore applied within a part of the Inferred Resource. Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability. There is no certainty that any part of the Mineral Resources will be converted to Mineral Reserves.

Environmental Permits have also been granted in April and May 2020 in relation to the Mestiza and America open pits respectively, both located in the vicinity of the La India Project. The Mestiza open pit hosts 92Kt at a grade of 12.1 g/t gold (36,000 oz contained gold) in the Indicated Mineral Resource category and 341Kt at a grade of 7.7 g/t gold (85,000 oz contained gold) in the Inferred Mineral Resource category. The America open pit hosts 114 Kt at a grade of 8.1 g/t gold (30,000 oz contained gold) in the Indicated Mineral Resource category and 677Kt at a grade of 3.1 g/t gold (67,000 oz contained gold) in the Inferred Mineral Resource category. Following the permitting of the Mestiza and America open pits, together with the La India open pit Condor has 1.12M oz gold open pit Mineral Resources permitted for extraction, inclusive of a Mineral Reserve of 6.9Mt at 3.0g/t gold for 675,000 oz gold.
